Revised 4-11-07

Public Service Department ENGINEERING DIVISION 732 City Hall 124 W. Michigan Ave. Lansing, MI 48933

Tetra Tech 1921 E. Miller Road, Suite A Lansing, MI 48911

CSO HOTLINE (517)394-5566

For CSO emergencies, after hours or weekends, call: (517) 483-4161

Dear Resident:

City of Lansing

Street Address.

The construction of the following is scheduled on your street: ☐ Sewer ☐ Curb & Gutter ☐ Sidewalk ☐ Drive Approach ☐ Street Resurfacing ☐ Water Main (BWL)
We plan to start work on your street on, and continue for a period of
weeks. If and when new concrete is placed in your drive approach, we ask that you not drive on it for at least 7 days. If you have any questions, or need any further information, please feel free to contact the CSO HOTLINE, at (517) 394-5566.
Thank you for helping to improve our environment!

Public Service Department, Engineering Division

FOR YOUR INFORMATION

- Keep your windows and doors closed to avoid dust and noise from construction.
- Parking Access to your street and driveway may be limited during certain periods of construction. You will be allowed to park overnight on a street near your house when access to your driveway is blocked. Hang this door hanger from your rearview mirror when parking in the street overnight. Please be sure to write in your street address in the space provided on the front of this card. You must not be parked in a No Parking Zone. Additional door hangers available upon request.
- Utilities and street light services may be temporarily interrupted. The City will make every effort to make regular garbage and recycling collections.
- Emergency services police, fire, and ambulance
 will be coordinated to ensure their access to any area at anytime during construction.
- Special Needs If you have a physical handicap, severe allergies, or other special needs, please contact the CSO HOTLINE at (517) 394-5566.
- Repairs If your lawn has to be removed for any reason, it will be restored at no cost to you. Curb repairs are generally made at City expense. If your drive approach or sidewalk is damaged as a result of our repair work, it also will be repaired at City expense. The approach is repaired by saw cutting and replacing the damaged portion. If you wish to have your drive approach replaced entirely, because of damage that existed prior to our repair work, the cost will be 100% yours. Arrangements should be made with our contractor.
- Construction Status Updates Please visit the following web site for construction status updates for the CSO project in your area at:
